Multi Sport Grass

Edel Grass has an extensive artificial grass collection for sports applications. All 'Made to win!' Our in-company R&D department gives us the ability to design, produce, test and refine our artificial sports grass systems.

They are designed to offer high quality use during their entire life span. We strive to deliver systems that perform in any climate and can be used in all weather conditions. Therefore we only use materials of the highest quality and work with suppliers that can meet to our demanding quality standards.

CHARACTERISTICS

- The best alternative to nature
- Year round performance
- Uniform playing characteristics
- UV-stable & extremely durable
- Clear maintenance planning

SUSTAINABILITY

- Ecologically responsible produced
- Safe to people & environment
- Meets the strictest environmental guidelines
- Produced with recyclable materials
- Avoids risk of soil contamination

APPLICATION & USE

By involving us in your activities in an early stage, we are able to share our knowledge with you and help you approach your project the right way. We strive to be a partner for you, to support you in successfully building your projects.

Multi SPORT systems *made to win*

The peoples sport

Soccer is the sport of the people. Already at the beginning of the last century, 'the dribbling game' with the sole rule of stopping the ball by hand and then moving it forward with the foot, was played all over England on lawns, sandy surfaces or just on the street.

It doesn't need further explanation that the game of soccer these days was a rough game with many injuries. Nowadays the sport and also soccer surfaces have improved strongly.

Edel Elite LSR

Terracotta sand filled multi sport system

Built on bound or unbound sub-base

excellence

Excellent grip

Multi purpose field

Good wear and tear

Proven long lifespan

Affordable work horse

Edel Elite LSR

Sand filled

MULTI USE SPORT SYSTEM BUILT WITH ROBUST FIBRILLATED YARNS

The Edel Elite LSR synthetic turf system for hockey has proved itself over the years as the leading sand-filled hockey pitch. The fibrillated original Ten Cate Grass fibres, combined with the infill, ensure controlled manoeuvring and slide-stopping. The result is a durable hockey pitch with perfect playing properties. Edel Elite LSR is recognised as the leading sand filled hockey pitch for many years.

- Sand filled multi use pitch
- Low Sliding Resitancy yarns
- Robust and durable solution

Edel Flashblade

Performance filled

AFFORDABLE QUALITY SPORT FIELD FOR MULTI USE & PLAY

The Edel Flashblade yarn fulfills the needs when a competitive multi sport field system is required. With it's 12.000 Dtex and matt finishing, Edel Flashblade perfectly covers performance infill and gives the field an outstanding natural look. Due to it's flash shaped yarn, the piles stay upright when played intensively. When built according to approved specifications, an Edel Flashblade field can also be FIFA Certified field.

Edel Elite SuperSoft

Summergreen sand dressed multi sport field

Preferrably built on bound sub-base

excellence

Faster play

Low in maintenance

No dragging after playing

Luxurious appearance

Minimal sand infill required

Edel Elite SuperSoft

Sand dressed

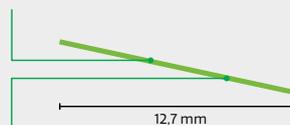

DISTINGUISHING ALL TIME SUPER PERFORMER

Distinguish your court with high quality artificial Edel Elite SuperSoft tennis grass. Micro curled polyethylene fibres provide a very even and non-directional playing surface. The system contains only little sand, made completely invisible by the curled fibres. The turf allows optimal pivoting and sliding, making it a super performer. After professional installation on a stable base, Edel Elite SuperSoft requires relatively low maintenance.

THE MULTI USE SOLUTION FOR TENNIS AND PADEL

Edel Elite Paddle Pro is developed for all-weather paddle courts and can be customised to every single location. The specific playing performance makes the system also suitable for tennis courts, offering a unique multi-use solution. The Edel Paddle Pro system has to be installed on a stable, free draining base and will require relatively low maintenance. The system has a superb water permeability with uniform and predictable ball bounce.
